INFORMATION OF NEW POINTS OF THE DISSERTATION

Dissertation topic: "*Organizing the implementation of the law on urban environmental protection in Vietnam today*"

Specialization: Theory and history of State and Law

Code: 62 38 01 01

PhD Student: Pham Thi Ngoc Dung

Academic Supervisor: Assoc.Prof.Dr. Nguyen Minh Doan

Training Institution: Hanoi Law University

SUMMARY OF THE NEW POINTS OF THE DISSERTATION

The first, the dissertation has analyzed and clarified theoretical issues on environment, urban environmental protection and law on urban environmental protection; the concept, characteristics, the role, subjects and the content of organizing the implementation of law on urban environmental protection; factors affecting the implementation of the law on urban environmental protection, etc.

The second, the dissertation has assessed the current situation of organizing the implementation of the law on urban environmental protection in Vietnam, highlighted the advantages and disadvantages as well as pointed out the basic causes of this situation with various numbers from many reports of the competent subjects and from the surveys conducted by the PhD student.

The third, on the basis of the theoretical study and practical assessment of organizing the implementation of the law on urban environmental protection in Vietnam, the dissertation has pointed out directions and proposed solutions to improve the effectiveness of organizing the implementation of the law on urban environmental protection in Vietnam today and in the coming time. The solutions proposed are based on scientific arguments, close to real life, and consistent with the current economic, political, legal, cultural and social conditions of Vietnam. Therefore, the dissertation is of highly scientific value and feasibility which can be consulted to develop and improve the law, and to serve the practical implementation of the law on urban environmental protection and sustainable urban development of the environment in Vietnam. This research can also be used for the aim of research and teaching at legal training institutions.
